

# Aluminium Venetian Colour Selector

## 16, 25 and 50mm Blinds

Aluminiums slats are available in a wide variety of durable finishes including the standard solid blades as well as 6% and 8% Perforated. Slats are designed to compact neatly, reducing stacking-bulk when not in use and are made from 95% recycled materials. Our slats are uniquely made to a thickness of 0.215mm, in comparison to others in the market at only 0.14 to 0.195mm. What this means to you and your client, is better 'bounce' back of the blade on twisting and reducing of accidental damage.
